

The five things *you'll do most*

Everything here works from the Shopify app on your phone. Nothing you do here can break the website.

1 Add a new product

1. Open the **Shopify** app, tap **Products**.
2. Find one that's most like the new one and tap it. Tap **...** then **Duplicate**. (It copies the delivery settings for you.)
3. Change the **name**, the **description** and the **price**.
4. Under **Media**, delete the old photos and add yours. Put the **square main photo** first.
5. Set **Status** to **Active** and tap **Save**.

Tip: not sure about the words? Send Dilz your notes and he'll write it up for you.

2 Change a price

1. **Products** → tap the product.
2. Scroll to **Price** and type the new price. If it has sizes (Standard, Large), tap each size under **Variants** and change each one.
3. Tap **Save**. The website updates straight away.

Tip: "Compare-at price" is only for a genuine sale. Leave it empty otherwise.

3 Mark an order as done

1. **Orders** → tap the order. The **delivery date** and **card message** are on it.
2. **Flowers you deliver:** tap **Mark as out for delivery** when you leave, then **Mark as delivered**.
3. **Parcels you post:** tap **Fulfil items**, add the Royal Mail tracking number, tap **Fulfil**.

Tip: the customer gets an email at each step. You don't need to message them.

4 Pause same-day delivery

1. **Online Store** → **Themes** → **Customise**.
2. Tap the **settings** icon → **Same-day delivery**.
3. Tick **Pause same-day delivery** and write your message, e.g. "Back on Tuesday". **Save**.
4. In the **delivery app**, block the same days so nobody can pick them.
5. To switch it back on: untick, **Save**.

4 What customers see

Order in the next 1h 14m for delivery today
Hand-delivered across Enfield and North London.
Delivery £[FEE] **TO CONFIRM** Areas and prices

Normal: a live countdown to your cut-off.

Same-day delivery is paused until Tuesday. You can still order for a later date.
Hand-delivered across Enfield and North London.
Delivery £[FEE] **TO CONFIRM** Areas and prices

Paused: your message instead. They can still order for later.

5 Reply to a review

1. **On your website:** **Apps** → **Judge.me** → **Reviews**. Tap the review, tap **Reply**, write, **Publish**.
2. **On Google:** open **Google Maps** → your profile → **Reviews** → **Reply**.

Good replies are short. Thank them by name and mention what they sent ("so glad the peonies made it for her birthday"). If someone's unhappy, say sorry and ask them to call you. Never offer anything in return for a review or for changing one. Google doesn't allow it, and UK review rules are strict.

Stuck? Call or message Dilz. Nothing on this page can break the website, and anything can be undone.
